AFTER-HOURS EMERGENCY PARTS SHIPPING

BY LAUREN SCHUSTER

Machines and systems can break down at any time and we are pleased to offer an emergency after-hours parts availability program.

This service is to be used for Emergency Shipping only and will not be considered as an extension of our normal business hours of operation (Monday–Friday, 8AM–5PM).

There will be a \$300 emergency service charge for any material shipped from LOGIC Technologies,

Inc. after hours between the hours of 10:00 pm Friday through 8:00 am Monday & Holidays. This service charge is in addition to the actual cost of the part and any shipping costs that are otherwise incurred.

A purchase order number will be required to be issued to LOGIC Technologies, Inc. on the next business day following the use of this service.

Training Information and Schedule

Training Enrollment

LOGIC Technologies, Inc. conducts in-depth training sessions at our facility on a monthly basis. Two free sessions are included with each system purchased. Additional training sessions are available for a nominal fee. Operator training sessions are \$850 per person and advanced training sessions are \$950 per person. We provide lunch for each class day; however, all other travel expenses are your responsibility.

Operator-Level Sessions

This class session provides overview coverage of the use of our system to maintain the daily operations of a refrigerated facility. The class is conducted by one of our senior engineers who have many years of experience designing refrigeration control systems. In effect, the classes are taught in layman's terms by someone who fully understands the issues faced by refrigeration operators.

July 15-17
September 16-18
October 14-15
December 16-18

Advanced SST Sessions

This class session provides in-depth coverage of the screen and report development tools. Also, briefly covering the script language used to develop control algorithms. These classes are conducted by senior members of our engineering staff. Prior technical and basic programming knowledge is a pre-requisite for this course.

August 12-14
November 11-13
